ATTACHING PIN ON MATERIAL BUCKETS
 (Figure 1)

Material buckets can be installed using tools ordinarily available.

Attach bucket to lift boom frame and bucket cylinders with four pins, 3/8 cap screws and 3/8 lock nuts (supplied with loader).

Attach bucket leveling rod (supplied with loader) through slot in bucket leveling bracket attached to tilt cylinder and inner ear on right side of bucket with 3/16 x 2 cotter pin (5) as shown in figure 1.

WARNING: Always use a drift and hammer made of non-sparking material (a shot filled mallet is recommended) to install or remove pins. A steel hammer or drift could generate flying metal fragments and result in injury. Always wear safety glasses when using a hammer to remove or install pins.

BUCKET MODEL	BUCKET WIDTH		STRUCK CAPACITY	
	Inches	Centimeters	Cubic Yards	Cubic Meters
72" Standard	72	183	0.58	0.45
72" H.D.	72	183	0.55	0.42
84" H.D.	84	213	0.68	0.48
84" Snow & Light Material	84	213	0.92	1.18
